

Universal Sizing

- Numbered adjustment panels allow sizing for perfect fit in mere seconds
- Belt adjusts for 24" - 60" waist
- One-size fit makes for ease of application for patients and reduces inventory headaches for physicians

■ Extension panels can add an additional 8"

Designed for Comfort

Every Quick Form brace is designed with numerous features to optimize patient comfort and support.

- Lightweight and comfortable
- Breathable zones throughout
- Soft, moisture-wicking material
- Effortless pulley tension system enables perfect compression when drawn with either single or dual hand pull
- Ergonomic pulley grips are designed with patients in mind who are lacking strength due to recovery or complications such as arthritis

Crafted for Performance

All Quick Form braces conform to the most stringent standards of performance, meeting the needs of clinical professionals for compliance and patient results.

Ask your doctor

which brace is right for your recovery and quality-of-life plan today.
